Dear Mr. Lake,

As a consumer, citizen, and tax-payer I have the right to know when the foods I buy have been genetically or otherwise modified. This information is crucial to my own and my children's well-being. Your advocacy on behalf of this position will be appreciated. Inaction or enactment of policy not enforcing full disclosure will also be duly noted. As the US delegate, kindly act in the interests of the safety and best interests of the public by demanding accountability in labeling for manipulated or treated foodstuffs at upcoming CODEX meetings.
